- HTML & CSS
- JavaScript
- Python & Java
- C#
- Responsive Design
- Git/GitHub
- Problem-Solving
- Quick Learner
- Connecting Programs
- Attention to Detail

LANGUAGES

- English: Fluent (B2 - C1)
- Azerbaijani: Native
- Turkish: B1

PROFILE SUMMARY

Motivated web development student with hands-on experience in creating responsive websites using HTML, CSS, and JavaScript. Familiar with backend development in Python and Java, as well as C#. Quick learner with strong problem-solving skills, aiming to grow into a full-stack developer role and contribute to innovative projects.

EXPERIENCE

Web Development Intern

CodeAlpha - Remote | July 2025 - August 2025

- Built responsive websites and portfolio projects using HTML, CSS, and JavaScript.
- Added animations and interactive features with GSAP/AOS to enhance user experience.
- Worked on a product landing page and portfolio site as part of internship tasks.

Software Development Intern

CodeSentinel - Remote | August 2025 - September 2025

- Developed a ParkingLot simulation in Java, implementing classes and system logic.
- Created unit tests with JUnit 5 to check functionality.
- Designed a product card component for web pages, implementing interactive features and responsive layout, used in a small online store.

University Project – Food Ordering System

ELTE – 2024 – 2025

- Developed a Food Ordering System in Python with multi-restaurant support.
- Implemented order history file saving and modular code using object-oriented programming.
- Strengthened programming, debugging, and project organization skills.
- Built small applications in Java and C# demonstrating object-oriented programming principles.
